

## **General Special Provision Revisions Effective April 7, 2003**

Please Note: The following list is a brief overview of each revision and the actual GSP should be read in it's entirety to become completely knowledgeable of the revision.

### **General Special Provision 050412.GR1 Contractor Surveying - Roadway**

This special provision has been revised to modify the surveying accuracy tolerances.

### **General Special Provision 10020012.GR1 Traffic Control Management**

This specification was modified to update the approved companies that offer classes to certify the Traffic Control Managers and Traffic Control Supervisors.

### **General Special Provision 1002031.GR1 Flashing Stop/Slow Paddles**

This specification was deleted as the use of the paddle was low and number of acceptable suppliers has dwindled to one company.

### **General Special Provision 1003011.GR1 Flashing Stop/Slow Paddles**

This specification was deleted as the use of the paddle was low and number of acceptable suppliers has dwindled to one company.

### **General Special Provision 1003032.GR1 Contractor Provided Signs**

This special provision was revised to delete the paragraph outlining the December 31, 2002 deadline for the use of the Type 1 or 2 reflective sign sheeting. In addition, all the new orange background signs are now required to have Type X fluorescent orange sign sheeting in lieu of the old Type IV and Type VII sheeting.

### **General Special Provision 02219.GB6, 02220.GB6, and 0231410.GB6 Pigmented Sealer**

This special provision was revised to allow the use of the new color "St. Helens Gray" and also revised the color chip approval process.

### **General Special Provision 023281.GR6 Precast Concrete Three-Sided Structures**

This special provision was revised to modify the certification of the manufacturing plant to meet the requirements of Section 6-02.3(28).

### **General Special Provision 200225.GR8 Light and Signal Standards**

This revision updates the pre-approved drawing number for Pole suppliers.

### **General Special Provision 200226.GR8 Light Standards with Type 2 Luminaire Arms**

This revision updates the pre-approved drawing number for Pole suppliers.

### **General Special Provision 28014.GR9 Perforated Steel Square Sign Posts**

This is a new specification that was added for sign post material to be used at the designer's discretion.
